POWERING UP

All creatures have the same set of base stats, but only Alleron can gain Experience Points, Form Points, Ability Points and levels.

PRIMARY STATS

Mind

Mind is the basis for intelligence, reasoning and curiosity.
Secondary stat: Spell Points

Body

Body is the basis for physical endurance and stamina.
Secondary stat: Hit Points

Spirit

Spirit is a measurement of an entity's current magical power.

When you cast a spell, your Spirit determines how powerful the spell's duration, damage and range are. The actual values differ from spell to spell.

SECONDARY STATS

Spell Points (SP)

Spell Points are a measurement of spell-casting energy. Each spell you cast subtracts some Mana from your total Spell Points, but they will regenerate slowly over time. Your maximum Spell Points total is derived from your Mind stat.

Hit Points (HP)

Hit Points are a measurement of health. When you take damage, that amount is subtracted from your total Hit Points. If your Hit Points reach "0", you die. Your maximum Hit Points are derived from your Body stat. (In Easy mode, Hit Points regenerate slowly over time.)

EXPERIENCE AND LEVELS

EXPERIENCE POINTS (XP)

Collect Experience Points by doing the following: defeating enemies, finishing quests, exploring non-critical areas, and completing tasks to receive rewards.

LEVELING UP

When you've accumulated enough Experience Points, you gain a level. Advancing a level has a few automatic benefits: you receive 5 Ability Points, 1 Form Point, and an immediate improvement in your character's offensive score.

ABILITY POINTS (AP)

Ability Points (AP) are awarded each time you gain a level. Use these points to increase your Mind, Body, and Spirit statistics.

1. Open the Ability Points distribution menu through the Pause Menu.
2. The left bar indicates remaining Ability Points, and the right bar indicates the amount of Experience Points needed to reach the next level. Use the three columns from left to right to put points into the Mind, Body and Spirit columns.
3. Distribute the points by pressing the  button, and press the  button to back out of the screen.

SHIFTING FORMS

There are six forms in the game, and four sub-forms for each form. Throughout the course of a game, you must make choices. The diagrams below show first the forms that Alleron can choose from, and second the sub-forms that can be selected during promotions.

SUB-FORM PROMOTION

You begin in the lowest sub-form, a Grunt. However, as you earn Form Points, you can allocate them directly to a specific form and be promoted to the next level of sub-forms (Shaman).

When you have spent enough Form Points to be promoted to the final sub-form, you must choose between the final two sub-forms. In general, one is biased toward physical combat (Warlord), while the other is disciplined with magic or another form of combat (Mage). You will retain any spells granted by the earlier sub-forms.

For example, you begin your Bestials form as the Iron-hoof Warrior (Grunt). After enough Form Points are allocated to the Bestials forms, you are promoted to the Spirit Claw sub-form (Shaman). When you've collected enough Form Points to be promoted again, you must decide whether to become the Silver Raptor (Mage) or the Tusklord (Warlord). Either way, this is the last promotion for this form, and although more Form points can be dumped into these sub-forms, all other promotions will have to be in other forms, such as the Genies or Kreegan.

Note that when spending Form Points, sub-forms gain enhancements to their weapons about midway into their next promotion. That means that promotion points can be spent for either the Mage or Warlord sub-forms to enhance them even though they do not promote further.

FORM-BASED STATS

Speed

Your Speed stat indicates how fast you are able to move. Equipped items modify your speed (walking, running, sneaking, etc.).

Offense

The Offense stat represents physical strength and power, and affects the amount of damage you are able to inflict in physical combat.

Defense

In human form, your base Defense stat is determined by the armor you are wearing. All other forms have a static predetermined base Defense.

DESCRIPTIONS

Bestials (Form)

Description: Bestials are humanoids with distinct animal characteristics. Their demeanor is ferocious and they often use predatory attack patterns. Evidence suggests that the Bestials may not be a naturally occurring race, but rather humans who have been twisted from their original form by dark magics.

Special Advantage: The spell "Lloyd's Sanctuary" instantly teleports the caster back to the nearest town.

It's believed that in this insidious alternate timeline, humans were fitted with magical technologies in order to control them; these experiments resulted in the Hybrids. These Hybrids proved impossible to control, though, and the Automata were created for the dual purposes of replacing the Hybrids and defending New Bylandria from Hybrid attacks.

Form Distribution Screen

The Form Distribution screen illustrates each available form and sub-form, how far you've been promoted in each form, and the offense and defense of a selected form.

In the Form Distribution screen, you can decide which forms you want to advance. Of each form, you can only be one sub-form. For example, once you've gained the Bestials form, you can never be the Spirit Claw and the Silver

Raptor at the same time. Once you've been promoted to another sub-form, that is the sub-form you will shift into.

The currently selected sub-form is displayed in the lower-center of the screen. Its general disposition and unique powers are described within the information box at the top center of the screen.

Allocate Form Points

- 1 Press the / directional buttons to select a form. The vertical bar to the right indicates the amount of Form Points available.
2. Press the button to assign these points to the currently selected sub-form, or press the button to back out of this screen.

The two vertical bars on the right of the screen represent your offense and defense respectively. These bars move up and down to show the selected sub-form's power levels.

COMBAT

COMBAT STATISTICS

In both the Inventory and Form Distribution screens are two vertical columns. The column with the sword represents your Offense, and the column with a shield represents your Defense. In combat, Offense is compared to Defense to determine how much damage you'll do. Also, various weapons will hit for different amounts of damage.

ELEMENTS

In Ardon, the elements play a very important role in the way combat works. Any magical thing, from creatures to enchanted weapons and armor, has an associated element.

Elemental Colors

Each creature's elemental type is displayed along with its Offense and Defense stats at the top of its vertical bar in the Inventory and the Form Distribution screens. Creatures have a colored ring around where they stand or hover.

Fire is Red

Earth is Green

Air is Light Blue

Water is Dark Blue

Elemental Dynamics

Each element has an "opposed" element that it works particularly well against. Offense attacks whose elements are opposed to their enemy's defensive element will enhance the damage they deliver. Similarly, if your defensive element is opposed to the attacking monster's offense, you won't take as much damage.

Fire beats Earth
Earth beats Air
Air beats Water
Water beats Fire

WEAPONS

To pick up a weapon, stand close to it and press the **R1** button. There are three categories of weapons: One-handed, Two-handed Narrow, and Two-handed Wide.

Quick Selection of Weapons

Press and hold the **▲** directional button until the Hot Menu appears around the current selected weapon. Use the right analog stick to select the weapon in the center menu.

Weapon Examples

Axe of Vim

Axe of the legendary hero Vim, it was quite possibly used to vanquish the mighty Kreegan god, Daglathor.

Sword of the Spider

This sword was made from the airy webs of a giant spider and hardened by the wind of a thousand Griffon wing beats.

Hammer of Mayhem

Chaos fire dances in tune with this mighty Dwarven battle-hammer. Mayhem is what it was created for, and gleefully does this hammer deliver on its name.

Selecting a Target

The first swing of your attack will auto-target the nearest available target. At that point, if it is an enemy, a Health Bar appears above its head. The enemy will remain targeted as long as the enemy remains in front of you. If you don't make any attacks within a short amount of time, the Health Bar fades from over the target's head, and the next nearest creature is auto-targeted when you attack again. To manually switch to a new target, press the **R2** button.

ATTACKING

Basic Attacks

- button Ranged Attack
- × button Quick Swing
- × and ○ buttons Sacrifice Attack (Costs Mana and Health)

Linking attacks

If you time your attacks, you can link certain combinations together to effectively reduce the recovery time of the swings. The following combinations have an effect on combat. Those involving a Ranged Attack finish a combo and do more damage.

- ×, ○ buttons ×, × buttons
- ×, ×, × buttons ×, ×, ○ buttons

Defending

You can swing and block, parry or crouch. But any attack done while also defending does no more than standard damage and may not link with further attacks.

- L1 button Parry
- L1 button Block (while holding a shield)
- L2 button Sneak

Sneaking allows Alleron to move about without being noticed, possibly avoiding an unwanted conflict. It generally does not work on monsters that are looking directly at Alleron.

Armor Examples

Armor of Vim

The great hero Vim, who stood before the legions of darkness, fought with the support of light. Archangels crafted his armor from the waters of the heavens and bestowed the armor on him as a gift for his valor.

Kreegan Battle Armor

Crafted in the fires of Volos on the forge of the Dark Spawn, Rvvssxx, Kreegan Battle Armor offers great protection against earth and physical attacks.

Eye of Daglathor

It is purported that this water shield was crafted from the eye of Daglathor himself. Not only does it enhance the wearer's defense against fire, but also adds to his offensive capability.

CASTING SPELLS

Press the □ button to cast the currently selected spell. Spells are another very effective way of attacking the enemy. Each time you cast a spell or change form, you use Mana. While your Mana does regenerate over time, the amount you can use all at once is limited. Your current Mana level is shown in the blue Mana bar on the right side of the Status Indicator.

LEARNING SPELLS

When you gain a new sub-form, you may also gain a spell with it. Spells are automatically added to your spell list. As you gain new sub-forms, you don't lose any spells (with the exception of "Imprison"). Some form-based spells may only work while in a certain form, and all spells cost less when cast in the native form.

Quickly Selecting Spells

Hold down the ► directional button. A Hot Menu appears around the current selected spell in the upper-right corner of the screen. Use the right analog stick to select the spell.

CROSSBOW

Your specialized hand crossbow is accessed through the spell menu just as spells are. While selected, pressing the ○ button will fire off crossbow bolts at your enemies.

SPELLS

Spells are listed using the name and a brief description.

Absorption

Steals Health from a target and grants it to the caster.

Active Defense System

If the enemy hits the caster, the enemy takes the same amount of damage it inflicts on the caster.

SAVING AND LOADING

You can save your game at any point. If you do not have 500KB free, you will still be able to save a game by overwriting a previously saved Shifters game. Once a game has been overwritten, you cannot return to that saved game anymore.

- Press the START button to enter the Pause Menu.
- Use the directional buttons or left analog stick to highlight the Save Game feature. Press the  button to select it.
- You will be given the option to save to an empty game slot or overwrite an existing saved game.

FREE MEMORY TO SAVE

If your memory card (8MB) (for PlayStation®2) does not have at least 500KB of available save space, you will receive a message saying "Not enough free memory to save". You must then either insert a new memory card (8MB) (for PlayStation®2) with at least 500KB of available save space, remove the Shifters game and use the browser to free space on your memory card (8MB) (for PlayStation®2), or decide to play without the option of saving your progress.

LOAD GAME MENU

You will be presented with any saved games you have on your inserted memory card (8MB) (for PlayStation®2). Selecting a specific file and pressing the  button loads that saved game.

LOAD A GAME

Insert your memory card (8MB) (for PlayStation®2) before turning on the PlayStation®2 computer entertainment system.

Select Load Game from the Start Menu or from the Pause Menu. You will be given a selection of previously saved games. Select the one you wish to load. The saved game on the memory card (8MB) (for PlayStation®2) will load, and you'll resume play from that saved game.

Should you be unfortunate enough to lose all your Health Points, you will die. If you choose not to load any previously saved progress or do not have a memory card (8MB) (for PlayStation®2) inserted, you will need to start a new game.

Your use of any such Support Services shall be subject to 3DO's then-applicable policies and programs as described in the end-user manual for the Program, in "on-line" documentation (if any), and/or in other such materials published by 3DO. All supplemental computer software and documentation materials (if any) provided by 3DO as part of its Support Services or otherwise shall all be considered part of the Program for all intents and purposes and shall be governed by the provisions of this EULA. Any information that You disclose or provide in connection with the Support Services may be used by 3DO for any of its business purposes, including, but not limited to, product development and support.

4. U.S. GOVERNMENT RESTRICTED RIGHTS. The Program and all components and versions thereof are provided with restricted rights. Use, duplication, or disclosure by the U.S. Government or any U.S. Government subcontractor is subject to restrictions as set forth in subparagraph (c)(1)(ii) of the Rights in Technical Data and Computer Software clauses at DFARS 252.227-7013 or subparagraphs (c)(1) and (2) of the Commercial Computer Software-Restricted Rights clauses at 48 CFR 52.227-19, as applicable. "Manufacturer", as such term is used therein, is The 3DO Company, 100 Cardinal Way, Redwood City, California, 94063, U.S.A.

5. EXPORT LIABILITY ASSURANCES. You agree that the Program will not be exported outside the United States except as authorized and/or permitted by the laws and regulations of the United States. If You have rightfully obtained the Program outside the United States, You agree not to re-export the Program except as permitted by the laws and regulations of the United States and the laws and regulations of the jurisdiction in which You obtained the Program.

6. TERMINATION. Without prejudice to any of 3DO's other rights and remedies under applicable law, 3DO may, at its sole discretion, terminate this EULA if You fail to comply with any of the terms or conditions of this EULA. In the event this EULA is terminated, You must destroy all copies of the Program, including, but not limited to, all components and versions thereof licensed to You hereunder.

7. GOVERNING LAW. This EULA shall be governed by and construed under the laws of the State of California, excluding that body of law related to choice of laws, and of the United States of America.

8. ENTIRE AGREEMENT. This EULA constitutes the entire agreement and understanding of the parties regarding the possession and use of the Program by You and the related subject matter hereof. If any provision of this EULA (or part thereof) is determined by any court of competent jurisdiction to be void, invalid or otherwise unenforceable, such provision (or part thereof) shall be deemed deleted from this EULA, while the remaining provisions of this EULA shall continue in full force and effect. No failure or delay by 3DO in exercising any right, power or remedy under this EULA shall operate as a waiver of any such right, power or remedy.
